COVER STORY

Should we be worried about India's best brains heading abroad at a young age? "There are enough brains to be drained," said Aggarwal. "The problem is that volumes have increased, so colleges are focused on getting great talent, not just good talent."

Many colleges are now collaborating with foreign educational institutions to offer courses in which students spend a certain number of years in India and the rest abroad. Mahindra École Centrale (MEC) in Hyderabad is an engineering college established through a partnership between Mahindra Group, École Centrale Paris and Jawaharlal Nehru Technological University, Hyderabad. "If internationalisation has to be inculcated in the young people, it has to be at the college level, it has to be at the university level and that is what MEC is about," said Sanjay Dhande, director, Mahindra École Centrale. "The motivation for internationalisation is to improve the quality and competitiveness of education and research." •
