**Students to take Vaccination before attending College**

Government may allow physical reopening of the college for students after improvement of Covid situation.

In order to ensure safety for the large number of students in the campus after physical reopening of the college, it is important that all students get vaccinated before coming to college.

Hence all the students are directed to get vaccinated at the earliest and produce vaccination certificates at the time reporting to the College failing which they will not be allowed to attend the college.
